

SB 1575 second vote explanation. The bill remains flawed. The issue of legal expenses must be solved. However, this will simply shift the liability to another entity. Getting more competition with liability protection is critical. Do not believe this will have the impact supports think. Further, it is going to pit engineers and engineers in the legal process in the future. It will end up in counters by cities, counties, and the state. We shall have a future opportunity to resolve the internal disputes of public works.
