

Please enter this vote explanation into the Senate record.

“SB 1607 is before the emergency session as it was killed in the 2020 Short Session by likely two walkouts: Republicans in the Senate who returned for the last three days, and Democrats in the House who walked out for the last three days of the scheduled session. It should have passed then. Should not be before us now in an emergency session. Yet, there is nothing wrong with it as it is needed plus any funding can be handled by the Emergency Board. An adjustment to the Small School District funding formula is required. Yes vote.”
