

Secretary: Vote explanation please. Sen Boquist

“SB 175 expands the hiding of public employee home addresses from legitimate inquires. This allows so-called public servants to hide their residences. If they want to serve the public then hiding there residences in inappropriate. DMV and ODOT do not give out data now without legitimate legal cause. Adding the Attorney General whose actions are taken in detriment of most citizens is no more legitimate than the existing hidden data. Whole law should be appealed.”
