

Secretary: Vote explanation please. Sen Boquist

SB 25A fixes several key issues in mental health proceedings. However, it creates a double standard. The private sector must comply with discovery in five days along with some limited public agencies. However, it creates a double standard that extends the response to 15 days for some public entities. Every entity, private and public, need to be held to the same standard. That would either be 5 days or 15 days whichever is best. A single standard needs to be established in an amendment in the House.
