

Secretary: Vote Explanation Please, Senator Boquist

“SB 748 allows a parent with a disabled child to remain on their state government insurance after they turn 26 in certain circumstances. If the 26 year old disabled child was removed then based on the circumstances they would no doubt be placed on the Oregon Health Plan. Simply makes more sense to save the transfer costs and transition issues between the two programs. While this Senator has a disabled child that child would not qualify for this program thus did not declare a possible conflict of interest. “
