

Secretary: Vote explanation please. Senator Boquist

“SB 753 is a terrible bill contradicting the very meaning of justice. It allows the Oregon Attorney General to only take spousal support cases that pay a bounty to the agency. Spousal victim whose case does not allow for the federal bounty will not longer be helped by the Oregon Department of Justice. Justice only goes to cases that can collect revenue to pay attorneys for the Attorney General. The staff measure summary and AG’s testimony on OLIS is very clear. Utterly disgusting position by the Attorney General who claims equal justice for all. “
