

EXPLANATION FOR THE RECORD

I would like to make a remark in my floor speech on SJM 4 more accurate. Speaking off the cuff, I said something to the effect that “Virtually all of my constituents” would agree that a significant conversation on reparations is warranted. On reflection I realize I have no way to know if that’s true. A fact that I can stand behind is that most Oregonians with whom I’ve spoken on this issue, which is not a very large number, would agree with that premise. I would like to correct my exaggeration.

Thank you,

Jeff Golden
