HB 3063 is a violation of parental rights in Oregon

State Rep. Bill Post speaking against HB 3063. Via Twitter:
State Rep. E. Werner Reshke, R-Klamath Falls

SALEM, Ore.—Monday the House of Representatives passed controversial vaccination legislation 35 to 25. House Bill 3063 is a hammer blow to the social fabric of Oregon says state Rep. Bill Post, R-Keizer.

Post released the following statement:

*“HB 3063 will force doctors to violate their Hippocratic Oath and throw out children from school simply because their doctors want to delay or forego certain vaccinations. Today, we are on the verge of perhaps amending a major portion of Oregon’s constitution without actually using the correct process of amending it. HB 3063 violates U.S. law as well by creating a kind of segregation. This bill goes directly against the ruling of *Brown v. the Board of Education* by mandating separate educational facilities for those who are fully*

vaccinated and those who are not. And, Merck—the sole provider of the MMR vaccine—is getting sued because they manipulated the data about their vaccines. The bill’s use of the emergency clause jeopardizes the credibility of the Legislature. Frankly, to rush this bill forward as an emergency measure is counterfactual and suggests that those pushing the bill recognize that the bill may not pass if presented to voters.”
