

Esri Redistricting

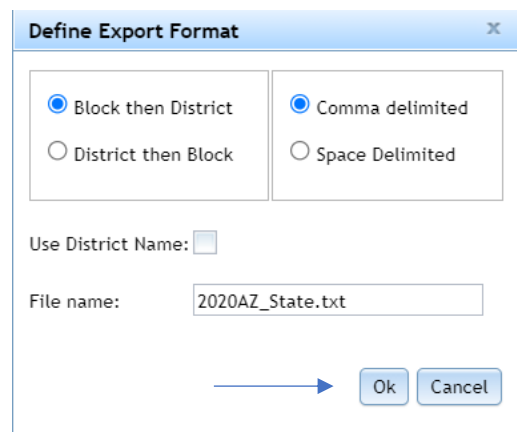

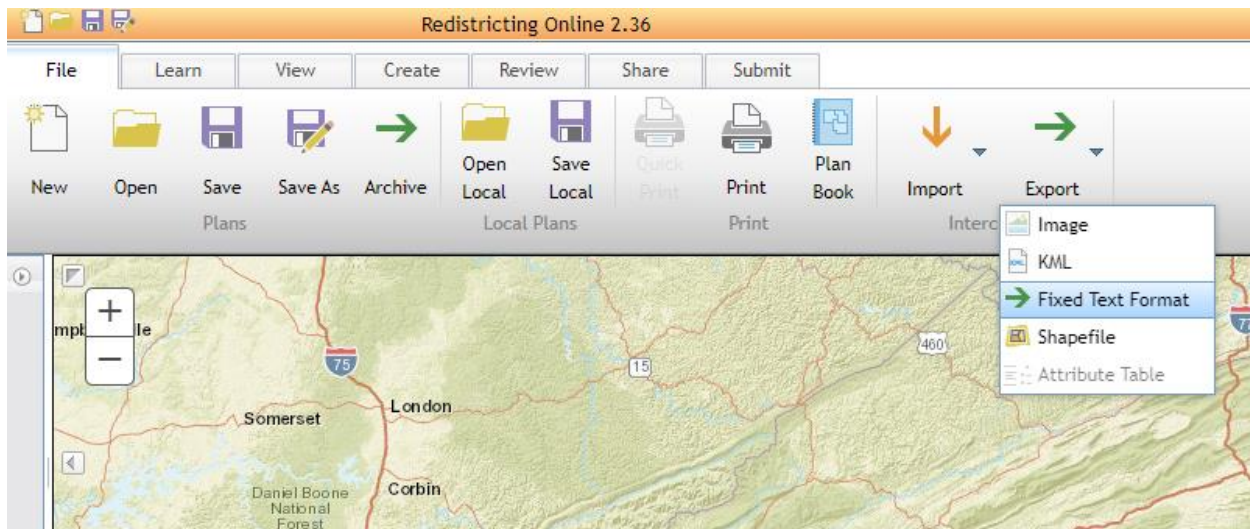

Procedure for exporting and importing an existing plan

Due to the replacement of the 2020 Census data in the Esri Redistricting solution, we advise customers who wish to save a pre-existing plan, to please follow steps 1 and 2 below. This is a very simple 2-step process that will allow the user to save any pre-existing redistricting plan and re-import them into the solution after the data upgrade. For any customer who has no need to save plans from the prior 2020 Census dataset, no action is required on your part. The data swap will be seamless to your users.

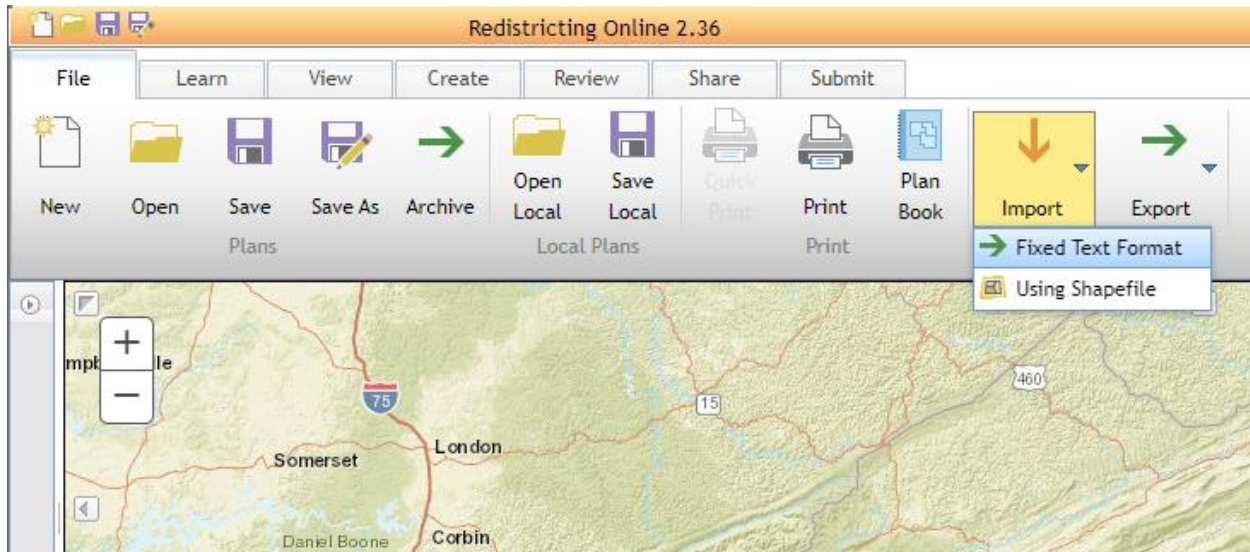

Please note: During the import of your plan, the application will ask you to provide a new name for your imported plan. The application will not allow duplicate names. You may delete your old plan after importing the new one.

Steps to saving pre-existing plans

1. Open the plan you wish to update
2. **Export Plan:** File → Export Plan → Fixed Text Format (save as .txt file)
3. Click **OK**

4. Plan will be downloaded.
5. **Import Plan:** File -> Import -> Fixed Text Format (locate your exported .txt file from step 2)
6. Select Source Geography and other input fields → Click **OK**

Select Import Format

Census Year:
 2000 2010 2020

Select the source geography:

- States
 - Alabama_2020
 - Alaska_2020
 - Arizona_2020
 - Arkansas_2020
 - California_2020
 - Colorado_2020
 - Connecticut_2020

Select data hierarchy:
 County-Tract-Block Group-Block

District Caption:
 District

Maximum Dev.(%):
 10

Import Format:

- Block and District
- District and Block
- Block and District (FIPS District)
- District and Block (FIPS District)
- Block and District Name
- District Name and Block

First few lines of Imported File.....

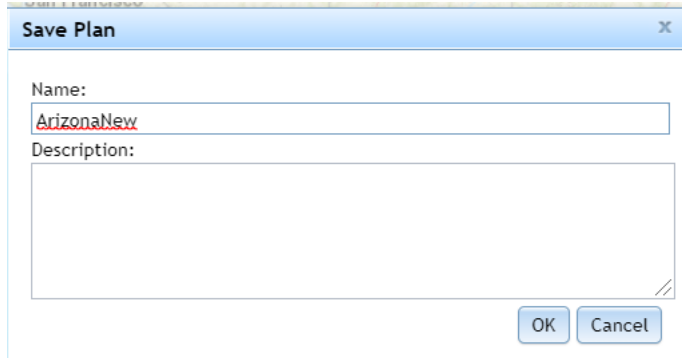

```

040050001001000,1
040050001001001,1
040050001001002,1
040050001001003,1
040050001001004,1
040050001001005,1

```

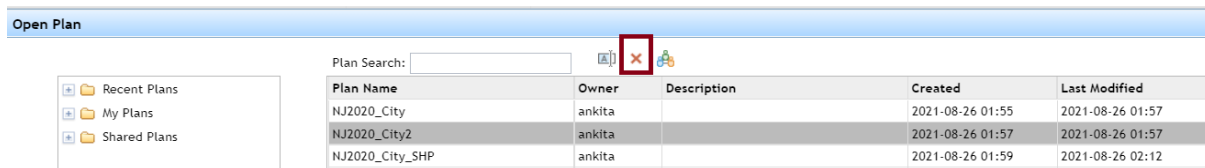

A FIPS district has the state code followed by the district. (i.e., 2301 for Maine District 1)

7. After the import plan process is complete → Click **Save**
8. Provide a new name for your plan → Click **OK**
 - a. Note: You will not be able to use the same name for the plan

The image shows a 'Save Plan' dialog box with a title bar containing a close button. It has two input fields: 'Name:' with the text 'ArizonaNew' and 'Description:' which is empty. At the bottom right, there are 'OK' and 'Cancel' buttons.

9. Repeat Steps 1 - 7 for each plan created for each plan you wish to save prior to this new 2020 data update.
10. If you wish to delete old plans → Select each plan and click **Delete**
11. After the new import plan is complete → Open Plan and click **Delete**

The image shows the 'Open Plan' interface. On the left is a sidebar with 'Recent Plans', 'My Plans', and 'Shared Plans'. On the right is a table with columns: Plan Name, Owner, Description, Created, and Last Modified. A 'Plan Search' field is at the top. A red box highlights a delete icon (an 'X' in a square) next to the search field.

Plan Name	Owner	Description	Created	Last Modified
NJ2020_City	ankita		2021-08-26 01:55	2021-08-26 01:57
NJ2020_City2	ankita		2021-08-26 01:57	2021-08-26 01:57
NJ2020_City_SHP	ankita		2021-08-26 01:59	2021-08-26 02:12
