Oregon Coastal Caucus  
C/o Senator Arnie Roblan  
900 Court St NE, S-417  
Salem, Oregon 97301

Dear Senator Roblan:

This letter of advice is provided in response to your request received on June 15, 2016 which presented a question regarding the application of Oregon Government Ethics law specific to circumstances in which public officials may participate in the 2016 Annual Oregon Coast Economic Summit (OCES). During the scheduled events, public officials will be offered food and beverage. This analysis and advice is being offered under the authority provided in ORS 244.284 as guidance on how the current provisions of Oregon Government Ethics law may apply to the specific circumstances you have presented.

I understand that the Oregon Legislative Coastal Caucus will host over 450 leaders from around the state at the 5<sup>th</sup> Annual OCES, August 8<sup>th</sup> & 9<sup>th</sup>, 2016. This year's theme, "Voices from Coastal and Rural Oregonians: Building a Collaborative Pathway to Economic Development and Prosperity for Rural and Coastal Communities," which will highlight the collaboration necessary to help prepare coastal and rural communities meet rapidly changing state and global economies.

Invited participants will include Congressional, State, Local and Tribal leaders, public policy advocates, academics and private partners for informative panel discussions on a wide range of topics that recognize the unique economic diversity of the coastal and rural communities.

During this event at the Mill Casino in North Bend, Oregon, the Confederated Tribes of the Coquille will provide and pay for meals. In the request you have asked what restrictions or requirements Oregon Government Ethics law may impose on public officials who may wish to participate in this event.

The purpose of this event is to educate and inform congressional, state and local government officials as well as regional stakeholders regarding matters affecting the current economic conditions facing Oregon's rural and coastal communities

Senator Roblan  
June 15, 2016  
Page 2

through keynote speakers and panelists who will provide an awareness, as well as, practical tools for possible legislative action. Those who participate will be provided food and beverage expenses.

Food and beverage provided to a public official would be considered a gift as defined in ORS 244.020(7)(a). ORS 244.020(7)(b)(H) allows acceptance of the payment of reasonable expenses for food and travel for public officials, relatives, members of the household, or staff members of the public official accompanying the public official, when the public official is representing their government agency during an **officially sanctioned** trade-promotion or fact-finding mission. How and who may officially sanction these events is addressed in OAR 199-005-0020(3)(b).

Based on the information provided, food and beverage is being provided by the Confederated Tribes, of the Coquille for public officials to participate in what appears to be a fact-finding mission, therefore ORS 244.020(7)(b)(H) would apply.

The public officials who participate in the event and who must file an Annual Verified Statement of Economic Interest form with the Oregon Government Ethics Commission would be required to report the aggregate value of these paid expenses pursuant to ORS 244.060(6) if they exceed \$50.00. Although it is not required that the Confederated Tribes of the Coquille, the source of the paid expenses, provide a detailed cost analysis of the paid expenses, it would be a courtesy to the public officials who may wish to participate in this event to receive a statement with the aggregate value of expenses paid on their behalf for filing purposes.

If you have any additional questions regarding the application of Oregon Government Ethics law please feel free to contact me directly.

Sincerely,

Ronald A. Bersin  
Executive Director

Does the American Criminal Justice System Need an Overhaul?

From Communist Romania to the 9th Circuit Court of Appeals, with love.

Discussion of Important Cases

**Cetacean Research v. Sea Shepherd Conservation Soc'y**, (9th Cir.2013)

**Wood v. Ryan**, (9th Cir.2013) (Kozinski issued a dissenting opinion, calling the use of drugs a "misguided effort to mask the brutality of executions.")

Born in Bucharest, Romania, July 1950, Kozinski's parents, both Holocaust survivors, brought him to the United States 1962. The family settled in Los Angeles, California, where his father, Moses, ran a small grocery store. Kozinski, who had grown up as a committed communist, became what he described as "an instant capitalist" when he took his first trip outside of the Iron Curtain to Vienna where he enjoyed such luxuries as chewing gum and bananas. Kozinski clerked for the then-future Supreme Court Justice Anthony Kennedy on the Ninth Circuit from 1975 to 1976, and then for Chief Justice of the United States Warren E. Burger from 1976 to 1977.

THE VOICES OF COASTAL AND RURAL OREGONIANS: BUILDING ON COLLABORATIVE PATHWAYS TO ECONOMIC DEVELOPMENT AND PROSPERITY

## Welcome to the 5th Annual Oregon Coast Economic Summit (OCES)!

As an active participant in Oregon's Rural-Coast Economic Development, the Oregon Coastal Caucus is pleased to extend a personal "thank you" to all our speakers, sponsors, attendees and Taste of the Oregon Coast presenters for taking the time from their busy schedules to visit us on the Oregon Coast. We greatly appreciate your support in helping us develop a collaborative pathway to address issues common to rural-coastal communities.

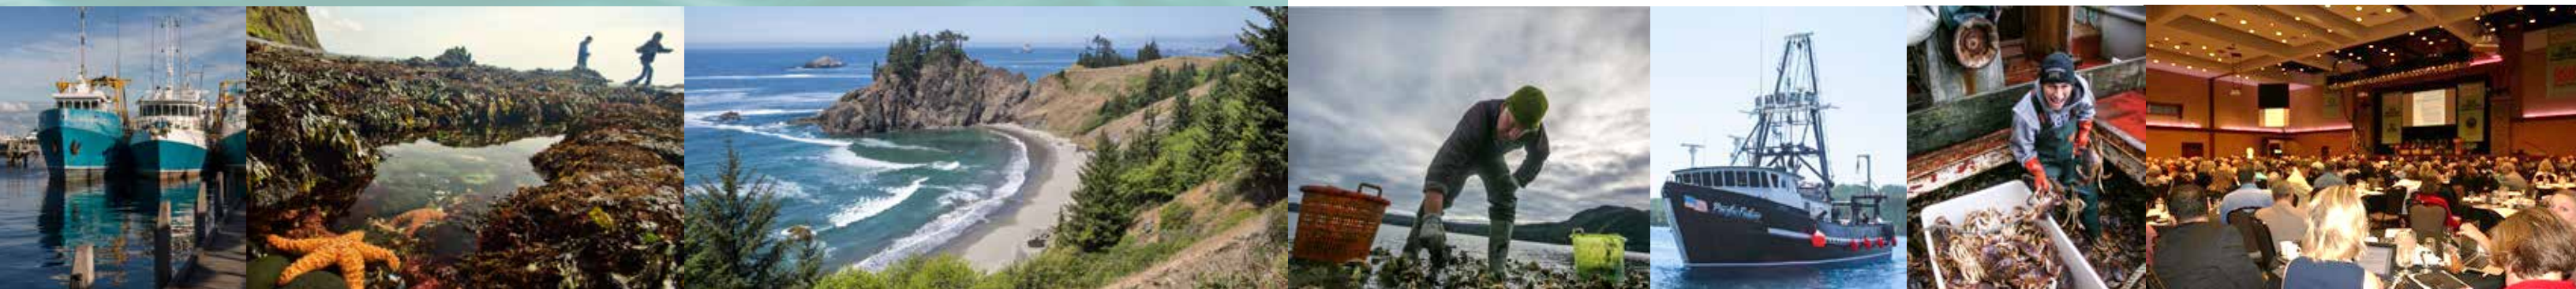

Special thanks to this year's primary partners: the Coquille Indian Tribe and The Mill Casino, Oregon State University, University of Oregon, Business Oregon, Oregon Department of Transportation and Association of Oregon Counties.

We hope that you will find this to be a memorable two-day event packed with informative panels to address our coastal and rural economic development needs. This year's theme, *The Voices of Coastal and Rural Oregonians: Building on Collaborative Pathways to Economic Development and Prosperity*, is aimed at continuing and enhancing previously established collaborations – across sectors and disciplines – in support of regional economic development solutions, particularly as we prepare for the 2017 Legislative Session.

OCES again will feature informative panel discussions on a wide range of topics that recognize the unique economic diversity of our coastal and rural communities. In addition to our focus on economic diversification, infrastructure needs, management of natural resource industries, healthcare, housing and Oregon land use goals, we will feature a unique collaboration with representatives from the Oregon Business Plan Summit for a broader engagement in the promotion of regional economic development.

Therefore, our community's successful economic development is dependent in good part on your attendance, involvement and participation at this year's Summit. You have a vital role to play in sustaining and contributing to the very constructive discussions, dialogues and developments that have become a hallmark of the OCES.

We are grateful for your attendance, support and continued interest in helping us to address the challenges and chart the future of a more economically diverse and robust Oregon Coast.

### United States Senator, Ron Wyden

Oregonians in every part of the state know Ron as a senator who always listens. Since his election to the Senate in 1996 he has thrown open the doors of government for Oregonians by holding open-to-all town hall meetings in every one of Oregon's 36 counties each year. Thus far, he has held more than 780 meetings throughout the state.

Although Senator Wyden's home is in Portland; he takes pride in saying that he is "not the senator from the state of Portland, but the senator from the entire state of Oregon." And all of us up and down the Coast know that's the case, as he has fought along with us to keep our Coast Guard station in Newport, to help our coastal fisheries and to grow our recreation and tourism sectors.

Senator Wyden came to Oregon more than four decades ago – after earning his bachelor's degree from Stanford – to attend the University of Oregon School of Law. He earned his law degree from the U of O in 1974 and went on to teach gerontology and co-found the Oregon chapter of the Gray Panthers, an advocacy group for the elderly. He also served as the director of Oregon Legal Services for the Elderly from 1977 to 1979 and was a member of the Oregon State Board of Examiners of Nursing Home Administrators before his election to represent Oregon's Third Congressional District in 1980.

In the Senate, he is the ranking member of the Finance Committee and serves on the Budget and Energy and Natural Resources Committees as well as the Senate Select Committee on Intelligence.

### United States Congresswoman, Suzanne Bonamici, Oregon's First Congressional District

Suzanne first moved to Oregon from Michigan in the mid-1970s. She attended Lane Community College prior to earning a Bachelor of Science from the School of Journalism at the University of Oregon and a J.D. from the University of Oregon School of Law. After law school, Suzanne was an attorney for the Federal Trade Commission in Washington, D.C., where she was in the Credit Practices Division of the Bureau of Consumer Protection. She met her husband, Michael H. Simon, in Washington and in 1986 they settled in Portland.

In 2007, Suzanne was elected to her first term in the Oregon House of Representatives, representing House District 34 in Washington County. A year later, Suzanne was appointed to the Oregon Senate to represent District 17. Suzanne was elected to the U.S. House of Representatives in a special election on January 31, 2012. She represents the First Congressional District of Oregon, which comprises the Northwest portion of the state.

Congresswoman Bonamici serves on the U.S. House Education and the Workforce Committee and is a member of the Subcommittee on Early Childhood, Elementary and Secondary Education. In her role on the committee, Congresswoman Bonamici has proposed legislation to improve the use of assessments in schools, expand opportunities for low-income college students and align career and technical education programs with workforce needs in the community. Last year Congresswoman Bonamici visited at least one school in every school district in the First Congressional District. Her conversations with students, teachers, and administrators continue to inform her work to make sure every student receives a well-rounded education. As part of that effort, Congresswoman Bonamici founded the bipartisan Congressional STEAM Caucus, which promotes integrating arts and design into STEM learning. STEAM education not only fosters creative thinking and innovation; it helps engage students who are traditionally underrepresented in STEM fields. Congresswoman Bonamici also serves on Science, Space and Technology Committee, where she is a champion for environmental research, ocean health and tsunami preparedness.

Persistent population loss is a challenge for many rural communities, where young people leave to continue their education, find a better paying job or simply to gain life experiences in larger urban centers.  
In 2014, Oregon State Economist Mark McMullen observed that young people are leaving rural areas because employment options are limited. This, coupled with companies failing to be established in the rural areas due to a lack of workers locally, is creating a destructive "negative, perpetuating cycle."  
  
Panelists will discuss the recent economic forecast for coastal and rural regions and the unique challenges associated with maintaining an educated and healthy workforce in these areas. Discussion will focus on how rural and urban areas differ with respect to the age of rural populations, demographic changes and the available labor force and poverty rates.
