**TABLE OF SECTIONS  
AMENDED, REPEALED  
OR “ADDED TO”**

## ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House measure number;

(b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or

(c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.

SB 881 – Under rules suspension, read third time. Carried by Taylor. On passage of bill the vote was: Ayes, 18; Nays, 11 - Anderson, Boquist, Findley, Girod, Hansell, Heard, Kennemer, Knopp, Linthicum, Robinson, Thatcher; Excused, 1 - Thomsen. Bill passed.

SB 881 – Boquist requested the following written explanation of vote be entered into the Journal:

SB 881 is the congressional redistricting bill US Representative DeFazio and Schrader publicly asked the supermajority Democrats to gerrymander and legislators received email testimony saying Our Oregon helped create the maps. After allegedly 22 public hearings and thousands of citizen testimony zero changes were made to the map. Even majority committee members had no idea who prepared the map prior to the work session. The Democrat Speaker of the 60-member House created a special two-person Democrat committee to the pass the bill to the Floor for a vote.

Just like in June 2019, the Democrat supermajority attempted to create a political media deception to deflect the legal deficiencies of the bill. I watched Senate majority staff request the Secretary's floor staff to harass Senator Heard for not wearing a mask on the side aisle. Then President Courtney (Democrat) found Senator Heard out of order for not wearing a mask in the gallery, theoretically due to medical risks. However, for the record, the Senate President Courtney placed contaminated wooden signs on all desks today but members could not distribute floor letters regarding SB 881 debate. This happened dozens of times during the regular Session. Other leadership materials were placed on the members desks as well despite contamination prohibitions in the same presidential rules. President Courtney had over 20 members signing nearly a hundred picture posters at three different floor desks. Member after member, sheet after sheet, same felt markers... zero sanitation. The perfect super spreader again in violation of the presidential rules. I personally saw almost every member shaking hands and giving hugs for which I did not refuse any Democrat handshake or hug. Dozens of head to head meetings and arm wraps. Floor and aisle chairs were back to inches apart. There was zero social distancing as OLIS video can easily prove. Many Democrats off the camera removed masks at breaks as well as Republicans. Pictures will even show the Presiding Officer without a mask. The President encouraged member staff not to attend supposedly due to medical concerns. President Courtney, Senator Wagner, and select individuals were complete hypocrites in an effort to deflect the debate on SB 881 for pure partisan political purposes not any medical reason what-so-ever.

SB 881 fails all the legal and judicial prerequisites. It is most discriminatory against the largest voting block in Oregon: independent and non-aligned voters. These personal debate observations and vote explanation are submitted in opposition, and for the official State Senate record before state and federal courts including the Oregon Supreme Court and U.S. Supreme Court. This is especially important with President Courtney and Speaker Kotek now attempting to use covid as an excuse for the legislature failing to pass redistricting plans.

SB 881 – Golden requested the following written explanation of vote be entered into the Journal:

To meet the Senate's duty under the state constitution (Article IV, Section 6), today I cast AYE votes to create two new political maps for the state of Oregon: SB 881 for congressional districts and SB 882 for state house and senate districts. In my view they were well-informed by citizen

input among the alternatives that met the criteria designated by law for this process.

This was not an easy vote to cast. These are not decisions that should be made by Oregon's legislators. They unquestionably impact the future prospects of any of us who choose to run for re-election or any other legislative office, as well as those of our close political colleagues. That means, however much care and integrity we bring to the task, we have a conflict of interest that pertains to almost no other Oregonians. That's a simple fact. To quote an increasingly popular slogan, "Voters should choose their representatives, not the other way around."

It's fair to ask if and how much our personal political interests influence our thinking in this process. But that question is neither resolvable nor as relevant as it might seem. Even if we could bring ourselves (as very few people can) to fully ignore personal interests, the current process is one reason many Oregonians understandably believe "the system is rigged." If there were any doubt before, the increasing civic strife over management of the COVID crisis makes painfully clear the high price of citizen disillusionment with government. Every decision we make these days has to consider the resulting impact on civic trust, and drawing the maps by which we ourselves might run for office clearly moves us in the wrong direction.

There's no reason we should keep paying this price. We legislators have no unique competence for drawing these maps, and no resources that couldn't be made available to a panel of designated map-makers who are not members of the legislature. Eight states have elected to do just that for congressional districts, and fourteen for state legislative districts. All of them seem to be operating well, and there's no indication that any of them want to re-establish the conflict of interest that we still accept in Oregon.

It is time to join these states. I call on my colleagues to transfer the responsibility we just fulfilled to an independent redistricting commission. Recent events suggest that Oregonians are ready to do that themselves by way of a ballot initiative that would have a very good chance of passing. But how much better for the long-term project of restoring public trust if we made this change ourselves.

Whatever the path, let's get out of the business of drawing maps that affect our own political fortunes.

**SB 881 – Thatcher requested the following written explanation of vote be entered into the Journal:**

I voted NO on SB 881 the Congressional Redistricting Plan because:

This map proposes indefensible lines which are drawn in a way to give Democrats overrepresentation in Oregon's Congressional delegation. While the statewide electorate has never given Democrats 86% of the vote in contested elections, this map will likely give them 86% of Oregon's congressional delegation. The Willamette Week and the Oregonian (not conservative outlets) have noted how this plan disproportionately favors Democrats. The Willamette Week noted that the only way for Democrats to have 5 seats from Oregon in Congress would be through gerrymandering.

By every metric, this map is obviously designed to benefit the party in power.

According to the non-partisan redistricting analysis tool, DRA 2020 this map earns the rankings of:

"Bad" for competitiveness (This means districts have been drawn in a way that advantages one party over another). Oregonians deserve competitive districts that accurately represent the electorate

"Very Bad" (a 0 on a scale of 100, in fact) for proportionality (or political fairness). We heard in public testimony an overwhelming opposition to gerrymandering. This map doesn't even attempt to listen to that testimony.

"Very Bad" for splitting. This map splits 7 counties 9 times. Plan B only split 4 counties. Plan B shows that respecting the oldest political boundaries by keeping counties together to the greatest extent possible is possible. This map in front of us decided to split them up in a way that advantages the majority party.

Republicans advocated for boundaries that respected the oldest, most recognized political boundaries in Oregon: counties. To achieve an

equal population, one would expect a congressional plan to split at least 5 precincts. These are the smallest community of interest there can be on these maps. But this plan chooses to split 107 precincts which unnecessarily split up neighborhoods.

**Spreads out Portland's Influence, Diluting Rural Oregon's Voice.**

The Portland Metro area is divided into three congressional districts. Why? Is it because Intel and Nike World Headquarters have so much in common with Tillamook's cattle ranches and Astoria's fisheries? Is it because the Oregon Convention Center and Antelope or Madras are similar in their economic interests? Is it because the well-being of the Warm Springs Tribe depends on the light rail system in Portland? It's obvious why these districts were drawn the way they were, and it has nothing to do with the legal criteria. 15% of Oregon's total population lives within the City of Portland. Under the proposed Congressional Map, 33% of Oregon's congressional delegation will represent portions of the City of Portland.

**Created Nonsensical, Artificial Boundaries.**

ORS 188.010 requires us as legislators to use, to the greatest extent possible, utilize existing geographical and political boundaries. CD 6's eastern boundary makes the least sense of them all: Follows I-5, cuts a golf course in half in Woodburn, starts following HWY 99E/Portland Road, cuts through the City of Salem in two places, then starts following the Willamette River until it starts west along the southern Polk county line. CD 5's northeast boundary—Good luck finding a legal, logical, or justifiable reason for this one: Splits up the city of Portland, splits 5 school districts in Multnomah and Clackamas County on its way over the Cascades. Follows 9 different roads and one creek on its way out of the City of Portland; follows 14 different roads, two creeks, one Bureau of Land Management Unit, and randomly cuts through the wilderness to get through Clackamas County. CD 4 uses no discernable political or geographical boundary to cut Douglas County in half. Cuts the Cow Creek Tribe into two districts

**Shores up Democratic Districts to Protect Democratic Incumbents.**

According to the non-partisan redistricting analysis tool, DRA 2020, current CD 4's composite election results from 2012 to 2018 was 49% Democratic – 46.6% Republican. This proposed CD 4 is now a 10-point Democrat advantage. CD 5 currently is a 3% Democrat advantage. Now it is an 8.9% Democrat advantage.

**SB 882 – Under rules suspension, read third time. Carried by Taylor. On passage of bill the vote was: Ayes, 18; Nays, 11 - Anderson, Boquist, Findley, Girod, Hansell, Heard, Kennemer, Knopp, Linthicum, Robinson, Thatcher; Excused, 1 - Thomsen. Bill passed.**

**SB 882 – Golden requested the following written explanation of vote be entered into the Journal:**

To meet the Senate's duty under the state constitution (Article IV, Section 6), today I cast AYE votes to create two new political maps for the state of Oregon: SB 881 for congressional districts and SB 882 for state house and senate districts. In my view they were well-informed by citizen input among the alternatives that met the criteria designated by law for this process.

This was not an easy vote to cast. These are not decisions that should be made by Oregon's legislators. They unquestionably impact the future prospects of any of us who choose to run for re-election or any other legislative office, as well as those of our close political colleagues. That means, however much care and integrity we bring to the task, we have a conflict of interest that pertains to almost no other Oregonians. That's a simple fact. To quote an increasingly popular slogan, "Voters should choose their representatives, not the other way around."

It's fair to ask if and how much our personal political interests influence our thinking in this process. But that question is neither resolvable nor as relevant as it might seem. Even if we could bring ourselves (as very few people can) to fully ignore personal interests, the current process is one reason many Oregonians understandably believe "the system is rigged." If there were any doubt before, the increasing civic strife over management of the COVID crisis makes painfully clear the high price of citizen disillusionment with government. Every decision we make these days has to consider the resulting impact on civic trust, and drawing the maps by which we ourselves might run for office clearly moves us in the wrong direction.

There's no reason we should keep paying this price. We legislators have no unique competence for drawing these maps, and no resources that couldn't be made available to a panel of designated map-makers who are not members of the legislature. Eight states have elected to do just that for congressional districts, and fourteen for state legislative districts. All of them seem to be operating well, and there's no indication that any of them want to re-establish the conflict of interest that we still accept in Oregon.

It is time to join these states. I call on my colleagues to transfer the responsibility we just fulfilled to an independent redistricting commission. Recent events suggest that Oregonians are ready to do that themselves by way of a ballot initiative that would have a very good chance of passing. But how much better for the long-term project of restoring public trust if we made this change ourselves.

Whatever the path, let's get out of the business of drawing maps that affect our own political fortunes.

SB 882 – Thatcher requested the following written explanation of vote be entered into the Journal:

I voted NO on SB 882, the Legislative Redistricting Plan mainly because:

This map shores up districts for vulnerable Democrat Senators and does not fairly or accurately represent the needs of communities of interest. It will likely entrench the Democrat's majority for the next decade.

Shores up Democratic Districts to Protect Democratic Incumbents. Current SD 10 favored Republicans by 0.9% according to the non-partisan redistricting analysis tool DRA 2020. The proposed district now favors Democrats by 7.5%. Rural Parts of Lane County will still be disenfranchised by the urban interests of downtown Eugene (SD 7 and 4).

SCR 31 – Under rules suspension, read in its entirety and placed on final adoption. Carried by Wagner.

Point of order by Hansell asking if the Senate adopts the *sine die* resolution, could the House compel the Senate to return.

Senate at ease. Senate reassembled.

President Courtney, in consultation with Legislative Counsel, stated that under Article IV, section 11, of the Oregon Constitution, if the House remains in session for three days, they could compel the Senate to return.

SCR 31 – Debate resumed. On adoption of resolution the vote was: Ayes, 18; Nays, 11 - Anderson, Boquist, Findley, Girod, Hansell, Heard, Kennemer, Knopp, Linthicum, Robinson, Thatcher; Excused, 1 - Thomsen. Resolution adopted.

Senate adjourned at 2:15 p.m., September 20, 2021.

### Friday, September 24, 2021

The Senate will remain adjourned until there is legislative business to conduct or until the end of the 2021 First Special Session, whichever occurs first."

## Monday, December 13, 2021 – Morning Session

### PROCLAMATION

WHEREAS: There is an urgent need for Oregon's Legislative Assembly to enact legislation before the end of the year that provides protections for tenants who have applied for rental assistance, ensures compensation for landlords, allocates additional resources for rental assistance, and funds a transition from pandemic-related emergency rental assistance to locally delivered eviction prevention services and

WHEREAS: There is a need for the Legislative Assembly to fund urgent investments in communities across the state.

NOW THEREFORE: I, Kate Brown, Governor of Oregon, pursuant to Article V, section 12, of the Oregon Constitution, find an extraordinary occasion exists, and do by this proclamation call the Eighty-first Oregon Legislative Assembly to convene in special session on December 13, 2021, at 8:00 a.m.

President Courtney announced that the Senate is in receipt of a copy of the following credentials report, and ordered that it be read and recorded in the Journal:

December 13, 2021

We, your Committee on Credentials, after inspecting the official certificate from the Secretary of State, respectfully submit the following report:

Vote explanations generally contain reasons given by a member as to why the member voted one way or another. These explanations are simply statements or laments as to a member’s own personal reasons for voting for or against a motion. Later, after my explanation was aborted by the Senate President, I was told that a “written” Vote Explanation would be acceptable, which adds more mystery as to why the “verbal” version would be gavelled down and stopped. Maybe it’s because the written ones are ultimately less likely to

ever be read, while the explanations stated on the floor might get more attention.

It is a shame that we couldn’t debate SJR 202 yesterday. Crime is reaching record levels and causing Oregonians today to feel more unsafe in their homes than they did just 2 years ago. That is in part due to the Governor’s decision to release violent criminals from prison early.

This week, public polling showed that 56% of Oregonians disapprove of the Governor’s decision to release violent criminals out of prison. Yet, the Governor continues her plan unchecked. Oregonians don’t like this kind of overreach.

This bill would have asked voters if they want their democratically elected representatives in the Senate to represent their voices in these decisions.

Right now, Oregon is only one of three states without any check on the Governor’s power to release criminals from prison early. This reform would have provided robust accountability and oversight.

SB 1558 - Read second time and passed to third reading.

SB 1582 A-Eng. - Read third time. Carried by Frederick. On passage of bill the vote was: Ayes, 18; Nays, 8 - Anderson, Findley, Girod, Gorsek, Hansell, Knopp, Thatcher, Thomsen; Absent, 1 - Heard; Excused, 3 - Boquist, Linthicum, Robinson. Bill passed.

SB 1582 A-Eng. – Frederick requested the following written explanation of vote be entered into the Journal:

I would like to again thank Chief Rob Bullock and Board Director Lupe Preciado-McAlister for bringing this issue to my attention and I am very grateful that I am able to support our RFPDs and the service they provide to our communities.

I also want to ensure on the record that RFPDs know that the Oregon Department of Revenue and the Oregon State Association of County Assessors have been great to work with and very accommodating to help RFPDs close this gap in time for the new property tax year. For interested RFPDs to use this bill in time for the new tax year though, the Department and the Assessors request that you start working on the process as soon as possible, and work with them on it, so that they can do their part in a timely manner.

SB 1560 A-Eng. - Read third time. Carried by Jama. On passage of bill the vote was: Ayes, 24; Nays, 1 - Findley; Absent, 1 - Heard; Excused, 4 - Boquist, Linthicum, Robinson, Thomsen. Bill passed.

SB 1564 A-Eng. - Read third time. Carried by Golden. On passage of bill the vote was: Ayes, 23; Nays, 1 - Lawrence Spence; Absent, 1 - Heard; Excused, 5 - Boquist, Linthicum, Manning Jr, Robinson, Thomsen. Bill passed.

SB 1564 A-Eng. – Armitage requested the following written explanation of vote be entered into the Journal:

This was a difficult vote for me. On the one hand, I strongly support Oregon’s farmers. Industrial hemp is an exciting crop with amazing growth potential and a wide range of marketable uses. Hemp crops can and should be a major export commodity for our state.

On the other hand, we have a real problem with illegal cannabis grows. I grew up in Southern Oregon and have seen firsthand the social and environmental degradation that comes with unchecked large-scale illicit marijuana grows, sometimes hiding in plain sight in hemp fields.

I voted yes, so we can have a pause to get illegal grows under control. I was persuaded by the sunset in this bill, and look forward to supporting Oregon’s legal hemp industry moving forward.

SB 1564 A-Eng. – Lawrence Spence requested the following written explanation of vote be entered into the Journal:

Hemp became fully operational in Oregon in 2015, since that time the industry has seen growth year after year, with the exception of a

significant decrease in 2020 due to the economic uncertainties wrought by COVID-19. As an emerging industry, the demand for hemp continues to grow across varying market segments inclusive of everything from therapeutic treatments to industrial applications. Everyday people in our communities are using hemp as an avenue to start small businesses; our local farmers are using hemp as a rotational crop to fortify their futures; and our BIPOC entrepreneurs are utilizing hemp to create generational wealth for their families and enter the federal hemp market.

Estimates from the Oregon Department of Agriculture, posit that around 50% of hemp grow sites reside in the counties who are more than likely to take advantage of the moratorium created by SB1564. Without the analysis necessary to inform us of the true economic impacts a moratorium created by SB1564 would have on our small farmers, our positioning in the national hemp industry and our state economy overall, or evidence to prove that it would indeed curb illicit grows, I could not in good faith produce an aye vote on this bill.

**SB 1564 A-Eng. – Patterson requested the following written explanation of vote be entered into the Journal:**

I wish to go on the record related to SB 1564 A to say that all those working in agricultural sectors should be able to decide what legal crops to grow in every given year. I voted in favor of this bill with the -9 amendment in the Senate Natural Resources and Wildfire Recovery Committee only because it was supported by law enforcement in counties particularly impacted by illegal cannabis grows.

The -9 amendment of this bill gives every county in Oregon the ability and discretion to decide whether to have a moratorium for one or at most two growing seasons, and sunsets on June 30, 2023.

I support the work of law enforcement in partnership with local counties with support from the State to deal with illegal cannabis grows, and therefore was a yes vote on SB 1564 A today.

SB 1579 A-Eng. – Thatcher requested the following written explanation of vote be entered into the Journal:

I voted against SB 1579 for the same reasons I voted against HB

4015. That particular bill would've increased the loan amounts from state funded loan programs to individual businesses from \$100,000 to \$1 M. Problems are usually not truly solved by making government bigger which ends up creating new sets of problems and tending to invite even more government interventions; and the cycle continues.

Throwing taxpayer money at non-profit entities to, in turn, attempt to solve the very serious issues facing too many in our state, will probably help a few individuals and certainly, the non-profits. But at what cost? Instead of creating more taxpayer-funded programs, we need to cooperatively uncover the primary reasons why some of our neighbors are far from thriving and flourishing. Following this assessment, we should get busy creating a positive combination of policies and re-thinking existing regulations that will help all our neighbors thrive and flourish. Decades of government-sponsored programs aimed at ending poverty, for example have failed. Lawmakers need to take a less government-centric view to solving problems and try different approaches. However, this is much more difficult to do than passing yet another government program, patting ourselves on the back saying, "look what we did" without actually getting at the primary reasons so many people are languishing in our great state. I predict we will be returning the next session to expand what is in this bill. Though there will be a few testimonials on the good that was accomplished, it will be found that we didn't spend enough money and also because "what we did" isn't actually working as well as expected. Again, at what cost? There has to be a better way.

HB 4064 B-Eng. – Thatcher requested the following written explanation of vote be entered into the Journal:

The great part of the bill is that it would allow people displaced by fires to reestablish an affordable residence. It's shocking this had to be legislated. It is evident, as another state senator mentioned on the floor, this bill is another "one-off" to our land-use system because our land-use system obviously is not working the way it is. Perhaps we need to take another look at our land-use policies. Astoundingly, this bill was supported by local governments even though it removes much of their discretion as far as allowing placement of manufactured homes within a stick-built community. As far as I can tell, it appears the locals expressed support in order to remove responsibility from themselves so when angry constituents come to them demanding a change to this policy, they can

point to the state and blame us.

HB 4153 - Thatcher requested the following written explanation of vote be entered into the Journal:

When the good carrier of HB 4153 referred to the film industry as "lucrative," it says it all as to why I'm opposed, generally, to the Oregon Film and Video Office. Though well intended, I do not want to more firmly entrench this taxpayer giveaway to the "lucrative film industry" by creating another program to feed upon it.

HB 4072, 4074, 4075, 4117, 4124 - Message from the House announcing passage.

SB 1510 B-Eng. – Patterson requested the following written explanation of vote be entered into the Journal:

I voted “yes” on SB 1510 and wish to explain my vote. Our law enforcement agencies are stretched so thin responding to 911 and to non-emergency calls, and they have been on the front lines throughout this pandemic, during the wildfires, ice storms – in fact, during every emergency. They have a difficult and dangerous job. SB 1510 promotes public safety by allowing our law enforcement officers more time to focus on more dangerous crimes and on community engagement.

At a time when our communities need to strengthen community relations and heal divisions, this bill allows law enforcement officers more time to focus on what is truly important in their work. This is why I voted to support this compromise bill.

SB 1510 B-Eng. – Prozanski requested the following written explanation of vote be entered into the Journal:

As a co-carrier of SB 1510 B, I want to share additional reasons why I supported the bill which I did not have time to state during my closing remarks.

Regarding Sections 13 – 18 (Justice Reinvestment): The Justice Reinvestment Equity Program (JREP) is an essential part of SB 1510 B. It will allow communities of color and other historically underserved groups to meaningfully participate in the JRI process, and access these critical resources, for the first time.

There are disparities in how Justice Reinvestment has worked in Oregon.

- When creating Justice Reinvestment (JRI) in 2013, advocates and the state neglected to disaggregate data, nor require targeted investments, to ensure that JRI would impact different populations equitably – the program has not been equitable.

- The women's prison population did not go down as the men's population did over the first few years of JRI, and racial disparities persisted in the prison population. To address those structural inequalities in JRI, a few changes have been made since this program's inception:

- In 2017, the Oregon Legislature passed HB 3078 to prevent the need to open a second prison for women. While the program had

driven down the overall prison population, it had not been successful in driving down the women's prison population.

- In 2019, the Oregon Legislature passed HB 3064 to study how JRI has impacted historically underserved communities, and whether culturally specific organizations were receiving JRI resources.

- Additionally, the HB 3064 report, as well as other evaluations, showed that significant disparities continue to exist in the JRI program.

JREP is narrowly tailored to address these disparities and is the least restrictive way to do so.

- The Justice Reinvestment Equity Program created by SB 1510 B is designed to specifically address disparities found in this report.

- CJC has said sentencing reform could reduce disparities, but the legislature has chosen not to do that. Given that reality, JREP is the only option narrowly tailored to address these disparities that past criminal justice reforms have failed to impact.

- Since 2013, the Justice Reinvestment program has allocated a total of \$150 million to all 36 Oregon counties and \$40 million this biennium; and

- This new funding stream of JRI will invest \$10 million to go to culturally responsive and culturally specific programs and is a small portion of the overall program serving the state. The other JRI funding streams that currently exist will remain in place.

Investments in culturally specific and responsive services can help reduce racial disparities in the criminal justice system.

- As noted in the CJC's HB 3064 report, p. 25-26 “Culturally specific services are the preferred service delivery model for historically underserved communities, as they have been shown to eliminate structural barriers and lead to better outcomes.”

- The 3064 report further identified structural barriers to these programs accessing current JRI funding streams, p. 28, “Culturally-specific providers traditionally have been excluded from consideration for JRI treatment subcontracts and victim services allocations—a reflection of institutional and systemic barriers.”

- The report also identifies several structural barriers for these programs at the local level, which include a failure to revisit existing contracts, truncated timelines for applications, and contracts awarded based on existing relationships “often to the exclusion of culturally specific providers.” (p. 29)

- Included in the recommendations of the 3064 report is that “The Legislature should carve out direct funding for culturally specific organizations.” (p. 31)

Culturally responsive and specific programs include more than race.

- Culturally specific and culturally responsive programs are about more than just race. Indeed, many culturally specific programs also serve all races while still being designed for a specific culture.

- While these programs will help to reduce racial disparities, culturally specific organizations and culturally responsive programs can also serve Eastern European communities, LGBTQ+ communities, and other historically underserved groups. All those organizations could potentially receive grants from this program.

SB 1510 B, Sections 26 – 29 (Criminal Justice Data Reporting): These sections of the bill will assist the Legislature in determining if the above policy decisions are having their intended effect. The CJC will be required to submit a report to the Legislature on or before January 15, 2024, on the use of Justice Reinvestment Program and the Justice Reinvestment Equity Program funds to address the disparities noted in the HB 3064 (2019) CJC report.

Again, for the reasons stated during my floor carry and those within this vote explanation, I voted yes on SB 1510 B (2022).

SB 1510 B-Eng. – Armitage requested the following written explanation of vote be entered into the Journal:

I spent weeks considering how I would vote on this bill, and ultimately decided that my vote would be a no.

I am deeply troubled by police brutality in our country and in our state. I have heard too many stories of BIPOC Americans, friends, and even colleagues here in the Capitol who have been intimidated, bullied, and threatened by police. While I know that as a white woman, I am unlikely to experience that kind of fear, I am motivated to address this problem and hold police accountable. Every driver in Oregon should feel safe behind the wheel of their car. No Oregonian should live in fear of the police.

For these reasons, it was difficult to ultimately vote against this bill. I feel that while the overarching goals of the bill are important, the language of sections 5-8 made it harmful for my district. Part of me wished I could have overlooked my concerns about these sections and votes yes. But I just couldn't get there; my concerns were too overwhelming. I believe that the pursuit of justice must be restorative wherever possible. We must strive to pass legislation that makes all parties whole. This bill does not do that.

In the best case, this bill will mean more cars on the road without proper headlights, taillights, or brake lights. This presents real dangers for ALL motorists in my rural district. A number of roads in Senate District 16 are in disrepair. Just this session, we passed HB 4053 to study Highway 6, which has seen an increase in injuries and fatalities due to its declining condition. Much of the district is mountainous. Nearly every road between the Pacific Ocean and St. Helens winds around steep mountains. There is abundant wildlife that cross our roads and frequently collide with cars and trucks. Highway 30, the main connector between Portland and Astoria, is poorly lit in most places and sees fatal crashes every year.

This bill still allows officers to use their discretion. When I asked my colleagues and supporters of this bill about this point, they assured me that a law enforcement officer could still pull someone over if they deemed the vehicle was unsafe according to ORS 815.020. This bill, if practices in this way, would be unevenly applied across the state: providing protection to Oregonians in well lit, paved areas with few traffic risks, but almost no protection in any corner of Oregon where there were high speeds, roads in disrepair, risks of interaction with wildlife, or inadequate overhead lighting on the roads. An officer with the intention of causing harm in an area with better road conditions (often more populated areas) might think twice as a result of this bill. An officer with the intention of causing harm in an area with poorer road conditions (often more rural areas) could still justify their behavior by claiming that the vehicle was unsafe due to consistently dangerous conditions of any given road.

Assuming that rural police officers rely on their discretion and continue to cite drivers with these equipment violations, there is a risk of disproportionate enforcement in rural areas compared to populated areas with better road conditions. Enforcement of this bill could also mean that rural Oregonians are still paying the cost of expensive citations whereas Oregonians in more populated areas are not.

This bill could put my constituents at serious risk of traffic accidents, injuries, and even fatalities; and doesn't protect them the way that it protects Oregonians in more populated areas of the state. My constituents are no safer as a result of this bill. That's not a trade I can make. We must strive to ensure that Oregonians experience real safety in every corner of the state.

SB 1504 A-Eng. – Armitage requested the following written explanation of vote be entered into the Journal:

This was Senate President Courtney's last bill carry, and out of deep care for the President I didn't want to vote no. However, the bill as originally introduced presented serious concerns for my district and spelled out an almost certain end for the Tillamook County Fair.

Fortunately, the President's office introduced amendments to address this unintended consequence. The advocates I was in contact with also assured me that with the amendments, the problem had been solved.

To make absolutely sure, I asked the following question to the Carrier on the floor:

"Is it accurate to say the amended bill puts the Racing Commissions administrative rule into statute and therefore my Tillamook County Fair should NOT lose any funding as a result of this bill?"

The Carrier answered "Yes."

To the best of my knowledge, the passage of this bill will have no negative impact on Tillamook County Fair funding. I'd like to thank the local leaders of Tillamook County who alerted me to the potential negative consequences of this bill.

I'd also like to thank Senate President Courtney for his decades of

service to Oregon. The Oregon Legislature is losing a giant, and I was honored by the opportunity to work alongside him.

SB 1536 B-Eng. - Read third time. Carried by Golden, Jama. President Courtney in Chair. On passage of bill the vote was: Ayes, 22; Nays, 5 - Findley, Girod, Linthicum, Thatcher, Thomsen; Absent, 1 - Heard; Excused, 2 - Boquist, Robinson. Bill passed. Thatcher granted unanimous consent to change vote from aye to nay.

SB 1536 B-Eng. – Thatcher requested the following written explanation of vote be entered into the Journal:

I voted no on SB 1536. Obviously, people need to be able to cool themselves off during heat waves and I agree that landlords should not, unreasonably, stand in the way of this.

The problem, though, is that this bill will become a boondoggle for two main reasons: Our state has shown it is not the entity to rely upon in emergencies and this bill will make housing even more expensive.

I have near zero confidence that state government does anything “emergency” very well, other than declaring them. For example, after the consequences of the numerous COVID-19 Emergency Orders were becoming apparent, the direly needed emergency unemployment benefits and emergency rental assistance bills gave many Oregonians hope. For far too many, though, it was a false hope. Many did not receive timely assistance. Many received no assistance. Many had to make many, many attempts to even successfully connect with state government, meanwhile falling into homelessness or near homelessness waiting for this promised help.

Oregonians help each other when possible. It’s what we do. When it comes to a situation where our elderly neighbors or small children are in a precarious position, we reach out with compassion as individuals and families to make sure they have what they need. We should continue relying upon ourselves, each other, and our communities; not on a bureaucratic, process-constrained, non-compassionate, inefficient big government program.

People should give a hand up and ensure that the vulnerable have a place to cool off but make it a local endeavor through neighborhood and community associations, or perhaps through city, and county governments. State government is neither agile nor responsive enough to be the answer to problems, including the one trying to be addressed in this bill.

The second main reason I voted against this bill is because it will add tens of thousands of dollars in additional costs to housing for renters who are usually more vulnerable to price pressures. If renters are reliant upon taxpayer funded subsidies, then this bill will necessarily increase public spending. If Oregon state government is mandating through this bill that all new rental housing is to be built with air conditioning, regardless of location, it is creating a one-size-fits-all and expensive solution, even where it may not make much sense, while also raising costs of “affordable” housing and costs to the taxpayers.

Besides the fact that this law will raise the cost of living in Oregon, the builders of these homes will likely be facing supply chain issues and higher prices for building materials impacting the practicality of implementing this part of the bill.

Also, I’m curious why the Oregon legislature is mandating installation of energy-eating equipment all over the state, while energy costs are soaring and while, at the same time, telling all of us to reduce greenhouse gas emissions.

These are some of the reasons I voted against SB 1536B, as well-meaning as it was intended.

SB 1549 B-Eng. - Read third time. Carried by Knopp. On passage of bill the vote was: Ayes, 23; Nays, 4 - Findley, Girod, Linthicum, Thomsen; Absent, 1 - Heard; Excused, 2 - Boquist, Robinson. Bill passed.

HB 4002 B-Eng. – Sollman requested the following written explanation of vote be entered into the Journal:

Senate District 15 is a diverse and beautiful district with a mix of urban and rural areas. From the agriculture-rich soil in the western-most area of Forest Grove, to the rolling hills of Helvetia, Senate District 15 supplies food on our tables, trees for our holiday celebrations, and berries and grass seed exported across the seas. Much of the rural parts of the district is made up of small family farms. I have taken many farm and nursery tours, rode in combines and pickers at harvest time and held community conversations with virtual rooms filled with the generational workers that work so very hard to support agriculture in Oregon. House Bill 4002 has been brought forward to align with other western states and provide overtime wages to workers working over 40 hours a week. I've heard from many farmworkers in my district loud, clear and through many tears, three main concerns need to be addressed: excessive heat working conditions, work-life balance for workers and dignified wages for dignified work.

I support the humanitarian concerns that need to be addressed for our farm workforce. With my support, comes some apprehension. I wish to express my concern for potential unintended consequences that may arise from this policy. While some workers want reduced hours to seek the balance their families need, some workers need as many hours to collect as much pay possible during a peak season. I worry that small family farms will find it necessary to cap hours and limit farmworkers to only 40 hours per week and that those farmworkers seeking more hours, will then need to work multiple jobs to ensure enough pay during a shortened season. I worry that our small family farms will be unable to afford to pay overtime when they need it most, during their peak seasons, when time is of the essence to harvesting a crop and dependent on

weather cycles. These farmers have told me how worried they are that they will not be able to sustain the overtime pay requirements in this policy and that they worry will have to sell their farms to larger corporations that can more easily absorb higher costs. I was given many examples of how some of the commodities grown in Senate District 15 have farmers being price takers, meaning they do not set the price for the goods they grow, but the processor does. The farmer drops their crops off with the processor and months later is given a check for what the processor is willing to pay, leaving the farmer to take the price offered to them with zero negotiations. I am hopeful that the tax credits and loans available provided in the bill will be a bridge to help see these small family farms through and that we can make adjustments as needed in the ensuing years to ensure that small family farms continue to thrive. My hope, and my advocacy as a leader, will be to make sure we do not experience these unintended consequences for workers and for small family farms.

Farmworkers are essential workers and the product of their labor feeds our families. The work is difficult and challenging. No one should have to work in extreme weather conditions that could potentially be life threatening. I also firmly believe in the right to a work life balance and that people should be paid a living and dignified wage to support their families and their lives. That is why I voted yes on House Bill 4002, to address the issues that are most important to our farmworkers.

HB 4002 B-Eng. – Findley requested the following written explanation of vote be entered into the Journal:

I remain strongly opposed to HB 4002B and remain firm in my “no” vote. This bill will devastate the fresh vegetable production, fruit production, and other labor-intensive agriculture in my district. However, I wanted to note that I support the inclusion of the broad “range production” exemption in this bill. I have been assured by the carrier of the bill that this exemption is broad, and will cover all range production in my district.

The range production exemption in current law is maintained in HB 4002B for the livestock workforce. This appropriately addresses those who need to care for and feed for animals, whether feeding them in fields, moving them on the range, or tending to the pastures and fences where they keep their herds and flocks, and includes all other related work necessary for the production of such livestock. These workers will still receive the salary required by ORS 653.020.

This exemption allows everyone caring for livestock to pay a salary, and respond to sick animals, birthing lambs and calves, and other needs without the impossible task of tracking their time. While I am disappointed that other agricultural employers were not granted the accommodations they require under HB 4002B, I am grateful for the inclusion of the range production of livestock.

HB 4002 B-Eng. – Armitage requested the following written explanation of vote be entered into the Journal:

I am filing this vote explanation to explain my vote on HB 4002. When we talk about farmworker overtime, we are talking about fairness. And there's a lot about this that just isn't fair. It hasn't been fair for a very long time. It is unfair that our state should be independently correcting an injustice ourselves that should be corrected with the full weight and power of the federal government. It is unfair that Oregon farmers might suffer consequences because of this choice we made as a nation—that overtime pay should be an American standard except for farmworkers. And it is deeply unfair that the men and women harvesting the food that my family will eat are working fifty to sixty hours per week or more doing one of the hardest forms of work imaginable without overtime pay.

We couldn't allow this injustice to continue, and we couldn't force our small farmers to take this burden on without our help. We used the weight of our power as legislators to devote resources to this cause as we should have, and should continue to do for as long as it takes.

I'd like to address the permanence of the tax credits. The percentages do decrease a bit over time, but they remain fairly high; 60% for small farmers under 25 FTE and 100% for dairies under 25 FTE. The language in the bill, as well as intentions clearly stated on the floor, demonstrates the idea that these tax credits will be ongoing. My expectation for future legislatures is that these tax credits remain permanent until there is a federal solution.

I'd also like to note that agriculture broadly is not a monolith; dairy and livestock operate differently than crop production. Because each of

these industries are vital to the well-being of our society, their differences should be considered in future legislation.

We need to take care of both our farmers and our farmworkers. This bill, though imperfect, was the best solution available to us. I expect that the legislature will continue to monitor this issue and ensure that we are doing everything in our power to keep both our farmers and farmworkers whole.

HB 4075 A-Eng. - Lawrence Spence requested the following written explanation of vote be entered into the Journal:

I produced an Aye vote for House Bill 4075 because it will provide greater support to survivors by establishing restitution for crime victims to be collected prior to any court fines and fees. This bill creates a possible expedited pathway to expunction for justice-involved individuals. It also prioritizes payments to victims over payments to the insurance industry.

House Bill 4075 would also create a rebuttable presumption that a record, bill, estimate, or invoice from a business, health care entity, provider or public body is a reasonable amount to be ordered as restitution for expenses. Under current law, victims and the state must surmount significant obstacles simply to obtain reimbursement for expenses sustained as a result of the crime that was committed, which lacks a trauma informed response and continues to place undue burden on survivors. While I recognize the increase in workload this will produce for public defenders, I am committed to pushing to fully fund our public defense system.

**TABLE OF SECTIONS  
AMENDED, REPEALED  
OR “ADDED TO”**

**ORS SECTIONS AMENDED, REPEALED OR “ADDED TO”**

From left to right in the columns of the table below are found:

(1) The section, series of sections or chapter of Oregon Revised Statutes.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the ORS section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the ORS chapter or series.

(3) The following information about the section and measure by which ORS is amended, repealed or “added to”:

(a) The section number and Senate or House measure number;

(b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or

(c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “§5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.

# SECTIONS IN UNCODIFIED LAW AMENDED, REPEALED OR “ADDED TO”

From left to right in the columns of the table below are found:

(1) The year, chapter and section or sections of the uncodified law.

(2) An “A” or an “R” indicating respectively the amendment or repeal of the uncodified section, or the word “Add” indicating that a section or sections of a measure are “added to and made a part of” the series of uncodified sections.

(3) The following information about the section and measure by which the uncodified section or sections are amended, repealed or “added to”:

(a) The section number and Senate or House measure number;

(b) The section number and current session measure number or previous session measure number if a measure was repassed over the Governor’s veto, followed by “OV” for a current session overturned veto or “OVP” for a previous session overturned veto; or

(c) The section number and boldfaced ballot measure number if an initiative petition was approved at the most recent general election (such as “\$5 BM 55”).

The engrossing level is printed next to the measure number if the measure has been engrossed (such as “C” to indicate the C-engrossed version, “AMR” or “AMR2” to indicate respectively the first or second minority report A-engrossed version, and “BCC” or “BCC2” to indicate respectively the first or second conference committee report or amendment to the B-engrossed version).

The measure number and engrossing level appear in boldfaced type if the measure has become law, or has been referred, and has been assigned an Oregon Laws chapter number.

(4) An “E” if an emergency clause applies to the amendment, repeal or addition.
