Thoughts For Thatcher:

Would you support paying a toll on an existing highway like 99W to fund a project such as the Newberg-Dundee Bypass?

Immigration Reform Takes Center Stage

This Friday I am joining Representative Linda Flores (R-Clackamas) to roll out a package of immigration reform proposals we have been working on for six months. We were not able to convince the Speaker of the House to create a special committee to deal with all the various immigration issues. However, we remain hopeful some kind of meaningful changes will be adopted this year at the state level. **Please come to a special Immigration Reform Legislative Rally Friday, February 9th at Noon on the Capitol Steps.**

Thanks for your support,

Adam Burch Act Sponsored by Thatcher

"I want to thank Kim Thatcher, she does a terrific job." The words of Beth Jackson on KPAM Radio February 5th talking to Victoria Taft about a new law Rep Thatcher is sponsoring for Jackson, who lives in Keizer. Jackson lost two family members to heroin and she is pushing a bill that would punish drug dealers for causing death and serious injury to others. [Click here](#) to learn more.

For Whom the Road Tolls?

Representative Thatcher and State Senator Larry George (R-Sherwood) have introduced legislation to control the use of toll roads in Oregon. While they are not against using tolls to pay for new projects like the Newberg Dundee Bypass the legislative duo does not want the state to put toll booths on existing roads. [Read more about these bills by clicking here.](#)

Are We Ready For Annual Sessions?

Check out a [commentary drafted by Representative Thatcher](#) and 10 of her colleagues printed in several papers around the state.
