Oregon Economy Stable, Limited Resources Available for 2025 Session

SALEM, Ore. – Today, the Oregon Office of Economic Analysis released and presented to state legislators its September revenue forecast and economic outlook.

Senate President Rob Wagner (D-Lake Oswego) is releasing the following statement:

“Oregon’s long-term economic outlook is stable and the Legislature must continue to capitalize on this stability by reducing costs for working Oregonians and creating career and educational pathways for our students to build a stronger Oregon. But we must remember that we have limited resources. Legislators must come into the 2025 legislative session prepared to make tough decisions about which programs, services, and projects we fund and ensure those decisions are consistent with the values of Oregonians.”
