Zika Secures Funding for COCC

Redmond, ORE. - Today, Representative Jack Zika (R-Redmond) released the following statement on vital funding for Central Oregon Community College:

“Yesterday, my colleagues and I were successful in bringing funds back to Central Oregon, through the allocation of over \$8 million to Central Oregon Community College to continue improving and growing the campus. COCC is an important part of our community, providing quality education and employment to thousands of people. This project will create more jobs and provide an economic boost during these uncertain times.”
